SECTION – A : READING (16 Marks)

I. Read the passage given below and answer the questions that follow : (8)

1. An elderly carpenter was ready to retire. He told his employer of his plans to leave the house building business and live a more leisurely life with his family. He would miss the pay cheque, but he needed to retire. The employer was sorry to see his good worker go and asked if he could build just one more house as a personal favour. The carpenter said 'yes', but it was easy to see that his heart was not in his work. He resorted to shoddy workmanship and used inferior material. It was an unfortunate way to end his career. When the carpenter finished his work, his employer handed over the key of the house to the carpenter – "This is your house, my gift to you."
2. What a shock! What a shame! If he had only known he was building his own house, he would have done it all so differently! Now he had to live in a poorly built house. So it is with us. We build our lives, a day at a time, often putting less than our best into the building. Then, with a shock, we realize we have to live in the house we have built. If we could do it over, we would do it much differently. But, you cannot go back. You are the carpenter, and every day you hammer a nail, place a board, or erect a wall. Someone once said, "Your attitude, and the choices you make today, helps build the "house" you will live in tomorrow. Therefore, build wisely!"

अपनी सूझ-बूझ और बुद्धि के कारण मनुष्य संसार का सबसे उत्तम प्राणी है। अपने भविष्य को सुखमय बनाने के लिए उसका जागरूक होना स्वाभाविक है। इस दृष्टि से यह आवश्यक है कि वह आय-व्यय में उचित तालमेल रखे। सुखमय भविष्य के लिए यह आवश्यक है कि आय का एक अंश नियमित रूप से बचाया जाय, जिससे आगे आने वाली आवश्यकताओं की पूर्ति सरलता से हो सके। सीमित खर्च करने वाला व्यक्ति मितव्ययी कहलाता है। अनावश्यक व्यय करके जो व्यक्ति धन का दुरुपयोग करता है, वह फिजूलखर्च माना जाता है। वास्तव में मितव्ययिता ही बचत और संचय की कुंजी है। कितना सही कहा गया है कि कोई व्यक्ति कमाने से नहीं, बचाने से धनी बनता है। मनुष्य के जीवन में जो आदतें बचपन में पड़ जाती हैं वे किसी-न-किसी रूप में जीवन भर बनी रहती हैं। मितव्ययिता और फिजूलखर्च की आदतें भी ऐसी हैं।
