Time : 3 Hrs. M.M. 80

Section: D - Literature (30 Marks)

SECTION-A: READING (16 Marks)

A1. Read the passage given below and answer the questions that follow:

(08)

A Great Book

- The test of a great book is whether we want to read it only once or more than once. Any really great
 book that we want to read the second time, even more than we wanted to read it the first time and
 every time that we read it, we find new meanings and new beauties in it. A book that a person of
 education and good taste does not care to read more than once is very probably, not worth much.
- 2. But we cannot consider the judgement of a single individual as valid. The opinion that makes a book really great must be the opinion of many people. For even the greatest critics are apt to have certain dullness, and hesitation in appreciation. A man must be many-sided to utter a trustworthy estimate of many books. We may doubt the judgement of a single critic at times. But there is no doubt possible in regard to the judgement of generations.
- 3. A great book is the best companion, man can have. It not only removes loneliness, spreads knowledge but even imparts valuable lessons at times. One must value the greatness of a book, because the greatness will last a lifetime. Being the owner of a great book is a matter of immense pride. It is an asset that leaves the reader gifted with the wealth of knowledge and happiness. It is the ultimate achievement of an educated man to read a great book.
- 4. The sweetest of stories are shared often over the discussion of a great book. At times a great book makes life worthwhile. We feel special having read the book. It even doubles the happiness, if gifted to loved ones. Next time you read a great book, be sure to spread the word and make others as happy as you felt reading it.
