**[Aim-atls2] Invitation to participate in National challenge - Ideate for India**

---

Dear Principal/ATL Incharge,

Atal Innovation Mission, NITI Aayog is committed to help and support the ATLS to reach their potential and enable you to guide the students to become innovators and solution providers.

Towards this aim, Atal Innovation Mission, NITI Aayog invites all Atal Tinkering Lab schools to participate in - **'Ideate for India – Creative Solutions using Technology'** - a learning and showcasing opportunity launched by the Ministry for Electronics & IT and Intel India.

'Ideate for India – Creative Solutions using Technology' - is a national challenge which aims to give school students a unique platform and opportunity to become creators of new indigenous technologies and thus is in sync with the overall objective of the Atal Tinkering Labs. The challenge is open to all students from classes 6 – 12; has three phases which include online learning, participating in boot camps, and showcasing at a national level platform where winners will be felicitated as National Tech-Creation Champions.

We encourage the students from ATLS to showcase their solutions and get selected as a National Tech Creation Champion.

Registration link: <https://ideateforindia.negd.in/>

The information manual and registration guideline is enclosed for your reference.

Please note that the deadline to submit your idea is **20th April, 2019**.

For any queries, please email to: [<ncsupport@digitalindia.gov.in>](mailto:ncsupport@digitalindia.gov.in) or contact helpline at **+91 9512112018**

All the best!

Happy Tinkering :)

AIM Team,
