Dear Principal/ATL Incharge,

Atal Innovation Mission wishes your school a Happy New Year!

AIM is proud to collaborate with Startup India for yet another innovative opportunity with the goal to tackle the issue of waste management - the [India-Australia Waste to Wealth Design Competition](#).

With any issue that persists in the world today, we can always look up to the youth to come up with creative, innovative solutions to tackle it. The primary objective is to encourage students from these two countries to come together, think creatively and design products from waste materials.

The competition is open for students from class 9 or above, undergraduate and postgraduate students from both countries, regardless of their field of study.

The 2 most innovative designs will be awarded with prizes and the opportunity to attend the India-Australia Bilateral Summit and showcase their innovation.

For more information and to apply, click on the following link :

<https://www.startupindia.gov.in/content/sih/en/ams-application/workshop.html?applicationId=5e00868de4b02f31768e10f3>

We hope to see maximum participation from the students from your school and nearby community.

Happy Tinkering :)

AIM Team,
NITI Aayog
