[Aim-atls2] The Olympics of Robots - RoboVR 2018 for schools

ATL helpline <atlhelp-niti@nic.in>

Fri, Sep 21, 2018 at 12:59 PM

To: ATL Schools <aim-atls@ismgr.nic.in>, ATL Schools 2 <aim-atls2@ismgr.nic.in>, ATL Schools 3 <aim-atls3@ismgr.nic.in>

Dear Principal/ATL Incharge,

It gives us immense pleasure to invite students from your Atal Tinkering Lab community to build robots and participate at Olympics of Robots, powered by RoboVR.

Olympics of Robots is a annual contest with 25+ human sports like Boxing, Cricket, Tug of War & more played by robots to be held at IIT Bombay's Techfest (Asia's largest sci & tech festival), Mumbai on 15th - 16th December, 2018.

We look forward to see young innovators use their tinkering skills in the most fun, entertaining, educating & futuristic way through building sports-robots. For more details on how to build these sports robots and to participate, visit : http://www.robovr.world/RoboVR/RoboVR_2018.html

Please note that this is an independent event and the ATL grant can not be used for travel/accommodation of any nature related to the competition.

For any query, kindly contact : inquiry@robovr.world

Happy Tinkering :)

AIM Team,
NITI Aayog,
