Dear Principal/ATL Incharge,

To identify India's best student innovators, Atal Innovation Mission, NITI Aayog in collaboration with The Better India have launched the Innovation Marathon 2018, a nationwide challenge across eight different focus areas viz. clean energy, water resources, waste management, healthcare, smart mobility, agri-tech, architecture and design, and Sustainable Development Goals. The objective is to further India's spirit of innovation by recognising ideas developed by young innovators to solve some of the country's most pressing challenges.

We invite and encourage the students from the school and local community to participate and share their ideas with us.

Last year, the ATL Tinkering Marathon 2017 saw a huge success, from over 650+ innovations received, top 30 were selected and offered the ATL Student Innovator Program (ATL-SIP), in partnership with industry and start-up incubators. The compendium can be downloaded here : <http://aim.gov.in/pdf/top30final-low.pdf>

This year, the winners shall be offered not only ATL-SIP, but also a chance to showcase your ideas at a national level, and access to mentors and labs to take prototypes to the product.

To Apply:
