

Dear Principal/ATL Incharge,

Hope the school and students had fruitful examination sessions and wishing them all the best for the results.

AIM is delighted to share that Indian Space Research Organisation has launched a special programme for School Children called "**Young Scientist Programme**" "**YUva Vigyani KARYakram**" from this year, in tune with the Government's vision "Jai Vigyan, Jai Anusandhan"

The Program is primarily aimed at imparting basic knowledge on Space Technology, Space Science and Space Applications to the younger ones with the intent of arousing their interest in the emerging areas of Space activities. The program is thus aimed at creating awareness among the youngsters who are the future building blocks of our Nation.

The Program is designed for students who have completed class 9th (academic year 2018-19) and waiting/joined class 10th. The Program will be of two weeks duration during summer holidays (second half of May 2019) and the schedule will include invited talks, experience sharing by the eminent scientists, facility and lab visits, exclusive sessions for discussions with experts, practical and feedback sessions.

We invite students from your school who are interested in space research to apply on the following link : <https://yuvika.isro.gov.in/yuvika/register.jsp>

Application Deadline : 3rd April, 2019 at 18:00 hrs

Additional information about the Program can be found at : <https://www.isro.gov.in/update/26-mar-2019/young-scientist-programme-yuvika-online-registration>

All the Best!

Happy Tinkering :)
AIM Team,
NITI Aayog
