A1. Read the passage given below and answer the questions that follow: (8)

The Paralympic Games

1. You may have heard of the Olympic Games, but have you heard of the Paralympic Games? This international tournament is just like the Olympics. Athletes from all over the world compete against each other in athletics, shooting, swimming, cycling and eighteen other games. The athletes at the Paralympics have a range of physical disabilities. Some of them do not have arms or legs, and some others cannot see. However, these athletes are determined to turn their disability into ability – something that can win them medals and do their nations proud.
2. The Paralympic Games were first conducted in 1948 in London. It was for British soldiers who had been injured during World War II. These first games were called the Wheelchair Games. They were a big success. The soldiers, who had thought that they would never be able to take part in sports again, got a chance to play and win.
3. Since then, the Paralympic Games have grown. Today, over 3900 athletes from 146 countries participate in them. Every four years, when the Olympics are held, the Paralympics are held too. India took part in the Paralympic Games for the first time in 1968. Murlikant Petkar gave India its first gold medal in the Games in 1972. Petkar had been a soldier in the Indian army. He had been seriously injured by gunfire during a war but Petkar did not give up on his love for sports. He took up swimming and won the gold medal in the 50m race. Petkar's win inspired many others with disabilities and now, India takes part regularly in the Paralympic Games.

A2. Read the poem given below and answer the questions that follow: (8)

Dirty Face

1. Where did you get such a dirty face,
My darling dirty – faced child?
I got it from crawling along in the dirt
And biting two buttons off Jeremy's shirt.
2. I got it from chewing the roots of a rose
And digging for clams in the yard with my nose.
I got it from peeking into a dark cave
And painting myself like a Navajo brave.
3. I got it from playing with coal in the bin
And signing my name in cement with my chin.
I got it from rolling around on the rug
And giving the horrible dog a big hug.

4. I got it from finding a lost silver mine
And eating sweet blackberries right off the vine.
I got it from ice cream and wrestling and tears
And from having more fun than you've had in years.

Case-Study based questions:

- Q.32 While many people lived in the cities, others living in the countryside grew crops and reared animals. These farmers and herders supplied food to crafts persons, scribes and rulers in the cities. We know from the remains of plants that the Harappans grew wheat, barley, pulses, peas, rice, sesame, linseed and mustard. A new tool, the plough, was used to dig the earth for turning the soil and planting seeds. While real ploughs, which were probably made of wood, have not survived, toy models have been found. As this region does not receive heavy rainfall, some form of irrigation may have been used. This means that water was stored and supplied to the fields when the plants were growing.
1. Name the new tool used to dig the earth for turning the soil and planting seeds. (1)
 2. What did the people living in the countryside do? (1)
 3. Name any **four** crops grown by the Harappans. (2)
- Q.33 In a democracy, it is the people, who give the government the power to make decisions and enforce laws. They do this through elections in which they vote for a particular person and elect them. Once elected, these persons form the government. In a democracy the government has to explain its actions and defend its decisions to the people. Another form of government is monarchy. The monarch (king or queen) has the power to make decisions and run the government. The monarch may have a small group of people to discuss matters with, but the final decision-making power remains with the monarch. Unlike in a democracy, kings and queens do not have to explain their actions or defend the decisions they take.
1. In a democracy, what power is given to the government by the people? (1)
 2. In a monarchy who has the power to make decisions and run the government? (1)
 3. Name the **two** types of government described in this paragraph. (2)
